NO GEOGRID OR TIE-BACKS In Many Applications

THE LEDGESTONE TEXTURE

The Challenge

You need a structural retaining wall, but you also need a wall that looks good. For the past ten years, Redi-Rock's limestone and cobblestone faces have led the industry in "The Essence of Natural Rock" look. Now, we're taking it one step further with the game-changing Redi-Rock Ledgestone face.

The Solution

The Ledgestone face creates texture and gives walls a random, natural look. The texture on each block makes individual blocks nearly indistinguishable, giving the impression of a natural, random stone wall. Featuring integral, rich coloring, Ledgestone is like nothing else available on the market today.

Redi-Rock Ledgestone is the perfect solution for projects that need to look good. Structurally, Redi-Rock Ledgestone blocks are the same as Redi-Rock blocks you have worked with in the past—the same massive dimensions, quality and ease of installation you've come to expect. At one ton each, you can build tall gravity walls using Ledgestone, and even taller walls with re-inforcement.

Contact your local Redi-Rock manufacturer or visit www.redi-rock.com to learn more about the Redi-Rock Ledgestone face today!

MIDDLE BLOCK:
Weight: 2400 lbs.
46" x 41" x 18" High
5.75 sq. ft. of face
